

COVID-19 symptoms and screening

Prior to your visit, we ask that you self-monitor for COVID-19 symptoms. If you do not feel well, please stay home. We will reschedule your visit.

You should expect to be asked the following screening questions (which may be revised from time to time):

1. Do you have **fever, new onset of cough, worsening chronic cough, shortness of breath, or difficulty breathing?**
2. Have you had any of the following other symptoms:
 - **sore throat**
 - **hoarse voice**
 - **difficulty swallowing**
 - **decrease or loss of sense of taste or smell**
 - **chills**
 - **headaches**
 - **unexplained fatigue/malaise**
 - **enteric symptoms including diarrhea, abdominal pain, nausea/vomiting**
 - **pink eye (conjunctivitis)**
 - **runny nose/sneezing without other known cause**
 - **or nasal congestion?**

If you are over 65 years of age and you are experiencing any of the following: delirium, unexplained or increased number of falls, acute functional decline, or worsening of chronic conditions, these may also be signs or symptoms of COVID-19. Please report these symptoms and do not attend your visit.

3. Have you had close contact with anyone with acute respiratory illness, a person who has been directed to be in self-isolation, or who travelled outside of Canada in the past 14 days?
4. Do you have a confirmed or suspected case of COVID-19 or have you had close contact with anyone with a confirmed or suspected case?

If the answer to any of these questions is **YES you will not be permitted to attend a visit at our residence. This is for the safety of all of our residents, staff and visitors. We are grateful for your cooperation.**
